

ROHANG SHAH

Melbourne, VIC | rohangsh7@gmail.com | +61458683275 | [Linkedin](#)

SUMMARY

Data Analytics & Business Intelligence professional (Visa Status: Subclass 485 - full-time working rights) with a Master's in Data Science and hands-on experience in SQL, Python, Tableau, Power BI, and AWS. Skilled in data wrangling, **predictive modeling, statistical analysis, and dashboard development** to deliver actionable insights. Proven ability to analyze large datasets, build machine learning models, and create cloud-based analytics solutions that support data-driven decision-making. Seeking to leverage technical and business expertise in a forward-thinking analytics or data science role.

PROFESSIONAL EXPERIENCE

Deakin University

Burwood, VIC

Junior Data Scientist

June 2022 - May 2023

- Joined the **Data Science team at Chameleon Company**, a simulated industry partner at Deakin University, supporting the City of Melbourne's Open Data initiative.
- Developed a **real-time heatwave risk simulation** using OpenWeatherMap API and **DBSCAN clustering**, detecting temperature anomalies across **30+ Melbourne suburbs**.
- Delivered a **species uniqueness dashboard** by merging 3 biodiversity datasets, identifying **40+ unique insect species** across **50+ locations** using **geospatial mapping**.
- Built and published **2 production-ready analytics use cases** aligned with Melbourne Open Data goals, analyzing **100K+ records** on climate and biodiversity.

One Media

Delhi, India

Data Analyst

June 2022 - May 2023

- Interpreted 100K+ campaign data points, driving a **15% lift in engagement** and reducing acquisition costs by 8%.
- Engineered SQL queries using Joins, CTEs, and Window Functions on **50,000+ records** to generate insights.
- Designed interactive Tableau dashboards with **15+ KPIs**, enabling real-time performance tracking for 10+ campaigns, leading to quicker **strategic decisions and improved client satisfaction**.
- Optimized A/B testing methodologies for **50+ marketing experiments**, reducing customer acquisition costs by **8%**.
- Presented** key campaign performance insights to the **CMO and marketing team**, demonstrating a 15% increase in engagement rates, leading to data-driven adjustments in strategy.

Theia Enterprise Pvt Ltd.

Mumbai, India

Data Analyst

Oct 2021 - May 2022

- Assessed **10,000+ transactional rows**, enhancing data integrity and supporting scalable analytics frameworks.
- Produced **Power BI dashboards featuring 10+ business metrics**, providing clear and actionable insights.
- Utilized Excel functions like VLOOKUP, Pivot Tables, and Data Validation to streamline manual data processing, reducing time by **40% across departments**.
- Built SQL queries and automated data cleaning in **Excel using VBA macros**, reducing manual effort by **35%**.
- Collaborated with **senior leadership** to develop data-driven decision-making frameworks, **driving a 12% uplift**.

PROJECTS

NLP-Based Log Classification System

- Developed an **NLP-based model** to classify log messages into categories, improving log analysis efficiency by **40%**.
- Built and fine-tuned **machine learning models** (Logistic Regression, Naïve Bayes, Random Forest) to classify logs with **85%+ accuracy**.
- Enhanced feature extraction with **TF-IDF and Word Embeddings (Word2Vec, FastText)**, hosted code on GitHub.
- Worked with Pandas and SQL to preprocess **50,000+ log records**, improving query efficiency for log retrieval by **35%**.
- Skills Used:** Pandas, NumPy, Scikit-learn, SpaCy, Matplotlib, Seaborn, Logistic Regression, Random Forest, SVM.

COVID-19 Data Exploration using SQL:

- Conducted in-depth data exploration on **5M+ COVID-19 records**, analyzing global infections, recoveries, and fatalities trends.
- Utilized SQL queries (Joins, CTEs, Window Functions, AGG Functions) to extract key insights from a structured database.
- Designed interactive Tableau dashboards, visualizing case trends, mortality rates, and regional comparisons.
- Skills Used:** Data Cleaning, Joins, CTEs, Window Functions, Aggregate Functions, Tableau (Charts, KPIs, Drill-Down Reports).

EDUCATION

Deakin University, Melbourne, VIC

July 2023 - June 2025

Master of Science in Data Science

Coursework: Deep Learning, Modern Data Science, Maths for AI, Statistical Analysis, Database Fundamentals, Data Wrangling.

TECHNICAL SKILLS

- Data Analytics & Visualization:** SQL(MySQL, PL/SQL, Oracle), Python(Pandas, NumPy, Matplotlib, Seaborn), Tableau, Power BI, Excel(Macros, VBA, Pivot Tables), Google Analytics, Snowflake (learning via coursework).
- Machine Learning & Statistical Analysis:** Decision Trees, Random Forest, K-Means Clustering, Predictive Modeling, NLP, Regression Analysis, Hypothesis Testing.
- Tools & Frameworks:** Agile methodologies, Jira, Git, ETL processes, Data Governance, Risk Management frameworks, AWS (S3, EC2), Azure (Data Factory), Hadoop, Spark.
